

Keep your customers' electronics up and running.

The average household has over 20 electronic devices that are used every day.* When these devices stop working, it can be challenging to find a reliable, easy way to get them fixed — until now!

A single contract can cover all the electronics your customers own.¹ For a low monthly fee, your customers can relax knowing they're protected against failures that can happen at any time and typically without any warning!

See other side for plans details.

Features and benefits

- ✓ Repair or replacement of qualified electronics
- ✓ Covers any qualified device in the home
- ✓ No restrictions or exclusions based on the age or where the covered item was purchased
- ✓ Flexible plans depending on your customer's needs starting at \$14.99
- ✓ This can be sold as a "stand-alone" offer — customers do not need to have a home warranty with Cinch to purchase this coverage. Everyone qualifies — including renters!

Service process

When a covered device stops working, the Cinch plan goes to work! The repair or replacement process couldn't be easier for customers.

Start a claim online or by phone.

Pay the deductible.

The covered item will be repaired or replaced.¹
